

INFORMATION ONLY – NOT A PRESS RELEASE

New York – April 1, 2003 - Please update your records to reflect the new ship date for Savage, the upcoming RTSS (real-time-strategy shooter) published by iGAMES and developed by S2 Games. Originally slated to ship in May, Savage will now ship in July 2003 in order to afford the development team the time to thoroughly work through all reported bugs and to implement some of the changes suggested by the first wave of beta testers.
